NITI Ayog has selected 117 Aspirational districts of the country in which Swajal schemes will be constructed. These schemes will be funded through flexi-funds under the existing NRDWP budget. These schemes will aim to provide villages with piped water supply powered by solar energy. Swajal is relevant in remote rural areas of the aspirational districts of the country.

In Uttarakhand state, two districts i.e. Udham Singh Nagar and Haridwar are selected. Aspirational districts are those districts wherein habitation coverage through piped water supply schemes is <25%. As per the Swajal 2.0 guidelines, the concerned Gram Panchayat will have to bear 10% of capital cost and O&M cost for minimum 3 years.

During F.Y. 2019-20, 12 schemes in district US Nagar and Haridwar will be taken up under NRDWP. These piped water supply schemes will be powered by solar energy.
